**Factory Inspection**  
To document the consistent quality of  
the product factory inspections are  
performed periodically.

- Salt corrosion  
resistance tested
- Periodic Inspection

**Remarks:**

The details of the factory inspection are documented in report no. 21212579.

The mechanical load test of EN IEC 61215:2005 was performed with a load of 5400 Pa for modules with the dimensions [mm]  
1481 x 991 x 38.

**Conditions:**

The product test is voluntarily according to technical regulations. Any change of the design, materials, components or processing may require the repetition of some of the qualification tests in order to retain type approval.
